52.225-10 Notice of Buy American Requirement--Construction Materials (MAY 2014)

(a) Definitions. "Commercially available off-the-shelf (COTS) item," "construction material," "domestic construction material," and "foreign construction material," as used in this provision, are defined in the clause of this solicitation entitled "Buy American--Construction Materials" (Federal Acquisition Regulation (FAR) clause 52.225-9).

(b) Requests for determinations of inapplicability. An offeror requesting a determination regarding the inapplicability of the Buy American statute should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of the clause at FAR 52.225-9 in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American statute before submitting its offer,

or has not received a response to a previous request, the offeror shall include the information and supporting data in the offer.

(c) Evaluation of offers.

(1) The Government will evaluate an offer requesting exception to the requirements of the Buy American statute, based on claimed unreasonable cost of domestic construction material, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(3)(i) of the clause at FAR 52.225-9.

(2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

(d) Alternate offers.

(1) When an offer includes foreign construction material not listed by the Government in this solicitation in paragraph (b)(2) of the clause at FAR 52.225-9, the offeror also may submit an alternate offer based on use of equivalent domestic construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate Standard Form 1442 for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of the clause at FAR 52.225-9 for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of the clause at FAR 52.225-9 does not apply, the Government will evaluate only those offers based on use of the equivalent domestic construction material, and the offeror shall be required to furnish such domestic construction material. An offer based on use of the foreign construction material for which an exception was requested--

(i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or

(ii) May be accepted if revised during negotiations.

(End of provision)

52.222-35 Equal Opportunity for Veterans (OCT 2015)

(a) Definitions. As used in this clause-

"Active duty wartime or campaign badge veteran." "Armed Forces service medal veteran," "disabled veteran," "protected veteran," "qualified disabled veteran," and "recently separated veteran" have the meanings given at FAR 22.1301.

(b) Equal opportunity clause. The Contractor shall abide by the requirements of the equal opportunity clause at 41 CFR 60-300.5(a), as of March 24, 2014. This clause prohibits discrimination against qualified protected veterans, and requires affirmative action by the Contractor to employ and advance in employment qualified protected veterans.

(c) Subcontracts. The Contractor shall insert the terms of this clause in subcontracts of \$150,000 or more unless exempted by rules, regulations, or orders of the Secretary of Labor. The Contractor shall act as specified by the Director, Office of Federal Contract Compliance Programs, to enforce the terms, including action for noncompliance. 52.223-9 Estimate of Percentage of Recovered Material Content for EPA Designated Items (MAY 2008)

(a) Definitions. As used in this clause-

"Postconsumer material" means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of "recovered material."

"Recovered material" means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

(b) The Contractor, on completion of this contract, shall-

(1) Estimate the percentage of the total recovered material content for EPA-designated item(s) delivered and/or used in contract performance, including, if applicable, the percentage of post-consumer material content; and

(2) Submit this estimate to:

(End of clause)

52.225-9 Buy American--Construction Materials (MAY 2014)

(a) Definitions. As used in this clause-

"Commercially available off-the-shelf (COTS) item"-

(1) Means any item of supply (including construction material) that is-

(i) A commercial item (as defined in paragraph (1) of the definition at FAR 2.101);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products. "Construction material" means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

"Cost of components means"-

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

"Domestic construction material" means-

(1) An unmanufactured construction material mined or produced in the United States;

(2) A construction material manufactured in the United States, if-

(i) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic; or

(ii) The construction material is a COTS item.

"Foreign construction material" means a construction material other than a domestic construction material.

"United States" means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference.

(1) This clause implements 41 U.S.C. chapter 83, Buy American, by providing a preference for domestic construction material. In accordance with 41 U.S.C. 1907, the component test of the Buy American statute is waived for construction material that is a COTS item. (See FAR 12.505(a)(2)). The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to information technology that is a commercial item or to the construction materials or components listed by the Government as follows:

None

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that-

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American statute is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American statute to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American statute. (1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including-

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars)

Item 1			
Foreign construction material....	_____	_____	_____
Domestic construction material...	_____	_____	_____
Item 2			
Foreign construction material....	_____	_____	_____
Domestic construction material...	_____	_____	_____

[List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.]

[Include other applicable supporting information.]

[* Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).]

52.204-24 Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment. (DEC 2019)

The Offeror shall not complete the representation in this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in the provision at 52.204-26, Covered Telecommunications Equipment or Services-Representation, or in paragraph (v) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Items.

(a) Definitions. As used in this provision--

"Covered telecommunications equipment or services", "critical technology", and "substantial or essential component" have the meanings provided in clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) Prohibition. Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as

critical technology as part of any system. Contractors are not prohibited from providing--

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) Representation. The Offeror represents that it will, will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation.

(e) Disclosures. If the Offeror has represented in paragraph (d) of this provision that it "will" provide covered telecommunications equipment or services", the Offeror shall provide the following information as part of the offer--

52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (OCT 2015)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

(A) Are () are not () presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have () have not (), within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation); and

(C) Are () are not () presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision.; and

(D) Have , have not , within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples. (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has () has not (), within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) Principal, for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and

information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

1.0 GENERAL INSTRUCTIONS

1.1 General Information

1.1.1 The offeror's proposal must include all data and information requested by these Instructions to Offerors and must be submitted in accordance with these instructions. The offer shall be compliant with the requirements as stated in the Specifications and Solicitation. Non-conformance with the instructions provided in these Instructions to Offerors may result in an unfavorable proposal evaluation.

1.1.2 The proposal acceptance period is specified in Block 13, SF 1442, of this solicitation. By signing block 20B of the SF 1442, the offeror certifies that the proposal is valid from the due date and time listed in block 13A through the entire period specified in block 13D.

1.1.3 All referenced documents for this solicitation are available on the Contract Opportunities (FBO) website at <https://beta.sam.gov/>. Potential offerors are encouraged to subscribe for real-time e-mail notifications when information has been posted to the website for this solicitation.

1.1.4 The Government reserves the right to revise or amend the specifications, drawings, or the solicitation prior to the proposal closing time. Such revisions or amendments will be communicated by amendments to the Request for Proposal (RFP) and posted on the beta.sam website. If such amendments require material changes in quantities or prices, the proposal closing date may be postponed by enough days to enable offerors to revise their proposals. In such cases, the amendment will include an announcement of the new closing date and time. Offerors MUST acknowledge all amendments in their proposal, either by completing SF 1442 Block 19, providing signed copies of the amendments with their proposal (Section III), or by separate letter which includes a reference to the solicitation and amendment numbers.

1.1.5 The Contracting Officer listed below is the Government's sole point of contact for this acquisition. Address any questions or concerns you may have to the Contracting Officer. Written requests for clarification may be sent to the Contracting Officer at the following email address:

Excluded offerors may request a pre-award debriefing or they may choose to wait until after the source selection decision to request a post award debriefing. However, excluded offerors are entitled to no more than one debriefing for each proposal. The Contracting Officer will notify unsuccessful offerors of the source selection decision in accordance with FAR 15.503. Upon such notification, unsuccessful offerors may request and receive a debriefing. Offerors desiring a debriefing must make their request in accordance with the requirements of FAR 15.505 or FAR 15.506, as applicable.

1.1.8 If an offeror believes that the requirements in these instructions contain an error, omission, or are otherwise unsound, the offeror shall immediately notify the Contracting Officer in writing with supporting rationale as well as the remedies the offeror is asking the Contracting Officer to consider as related to the claimed omission or error. The offeror is reminded that the Government reserves the right to award this effort based on the initial proposal, as received, without discussions. This reservation includes matters of additional or substitute pages of the initial proposal.

1.1.9 The Contracting Officer has determined there is a high probability of adequate price competition in this acquisition. Upon examination of the initial offers, the Contracting Officer will review this determination and if, in the contracting officer's opinion, adequate price competition exists no additional cost information will be requested and certification under FAR 15.406-2 will not be required. However, if at any time during this competition the Contracting Officer determines that adequate price competition no longer exists, offerors may be required to submit information to the extent necessary for the contracting officer to determine the reasonableness and affordability of the price.

Offerors must provide past performance information to establish Recency and Relevancy on all Federal contracts before State, local government or private contracts. The Government's evaluation of past performance information may take into account past performance information regarding predecessor companies, key personnel who have relevant experience, or subcontractors that will perform major or critical aspects (see Teaming Agreements and JV's, para 4.2 and 4.3), when such information is relevant to the instant acquisition. Offerors are required to explain what aspects of each contract are deemed relevant to complexity and magnitude as related to the requirements of this solicitation and in accordance with Section M. To be recent, the effort must be ongoing or must have been performed during the past six (6) years from the issuance month of this solicitation. Past performance information that fails this condition will not be evaluated.

b) Relevancy Assessment:

The Government will conduct an in-depth evaluation of all recent performance information obtained to determine how closely the products provided/services performed under those contracts relate to the Technical factor and Cost/Price factor, including their relative order of importance [reference Section M, para 1.1(a)(2)]. Consideration will be given to projects involving the type of construction and work elements described in the attached Specifications. Relevant past performance information must demonstrate construction experience involving the type of construction and work elements described in the attached Specifications, Section 01 11 00, paragraph 1.1.1, and costs comparable to the project magnitude as specified in Block 10 for the SF 1442, Request for Proposal. A relevancy determination of the offeror's past performance will be made based upon the aforementioned considerations, including joint venture partner(s). In determining relevancy for individual contracts, consideration will be given to the effort, or portion of the effort, being proposed by the offeror or teaming partner whose contract is being reviewed and evaluated. The past performance questionnaires and information obtained from other sources will be used to establish the degree of relevancy of past performance.

4.1.2 Complete Section A, Contractor Information, of Attachment 4, Past/Present Performance Questionnaire and mail, or email the attached Past/Present Performance Questionnaire to all past performance references in the list you provide and instruct them to return the completed questionnaire to the individual(s) indicated in paragraph 4.1.3 below. Offerors are responsible for ensuring their references transmit the questionnaire to the Contracting Office. In lieu of a Past/Present Performance Questionnaire, if a project is currently available in the Contractor Performance Assessment Reporting System (CPARS), the contractor should attach the evaluation to the questionnaire with the relevant solicitation number and submit directly to the 1st Special Operations Contracting Squadron office before the official closing date and time. Electronic submissions shall be sent to:

Mr. Richard Beaty, Email: richard.beaty.3@us.af.mil

Capt Branden Cunningham, branden.cunningham.1@us.af.mil

4.1.4 Lack of any past performance will not automatically disqualify an offeror, but it is a factor that is considered in the Best Value Subjective Tradeoff Source Selection described in Section M.

4.1.5 If the offeror claims there is no past performance, then that status must be identified to the Contracting Officer not later than the date/time proposals are due from all offerors.

4.2 Volume II (b) Signed Teaming Agreement - If Teaming Agreements are contemplated they must comply with 13 CFR Part 121 - Small Business Size Regulations. A Teaming Agreement must establish each party's role in the proposal preparation process and will be incorporated into the

contract. Failure to clearly define roles and/or provide a Teaming Agreement with a proposal shall make teaming arrangements and related subcontractor past performance ineligible for evaluation and consideration of award. The prime contractor shall remain fully responsible for contract performance, regardless of any Teaming Agreement between the prime contractor and its subcontractors. Teaming Agreements must provide the following information as part of their proposal, Volume II (b), not later than the date/ time proposals are due:

4.2.1.2 Provide for protection of competition-sensitive proprietary information. (Subcontractor past performance cannot be disclosed to the prime offeror without the subcontractor's consent). Provide a letter from all subcontractors that will perform major or critical aspects of the requirement, consenting to the release of their past performance information to the prime contractor, only if it is being used as part of the past performance evaluation.

4.2.1.3 Identify each member's share of the prospective contract, 50/50, 51/49, etc.

4.2.1.4 Exclusivity. Assurance that the team member will not be replaced for the duration of the contract, any exceptions should be identified. Assurance that the team members are not teaming with another firm for the same procurement.

4.2.1.5 Statement of acknowledgement that the Prime Contractor is responsible for adhering to contract terms and conditions and daily management. The Prime Contractor is obligated to negotiate in good faith and responsible for conveying mandatory government terms and conditions to subcontractors.

4.2.1.6 The prime contractor shall remain fully responsible for contract performance, regardless of any teaming agreement between the prime contractor and its subcontractors.

(S) 125.9 (or, if also an 8(a) BD Participant, with an approved mentor authorized by 13 C.F.R (S) 124.520), for the purpose of submitting an offer for a HUBZone contract. The joint venture itself need not be a certified HUBZone small business concern.

4.3.1 A joint venture of at least one certified HUBZone small business concern and one or more other business concerns may submit an offer as a small business for a HUBZone procurement or sale so long as each HUBZone is small under the size standard corresponding to the NAICS code assigned to the procurement.

4.3.2 A joint venture between a protege firm and its SBA-approved mentor (see 13 C.F.R (S) 125.9) will be deemed small provided the protege qualifies as small for the size standard corresponding to the NAICS code assigned to the HUBZone procurement.

4.3.3 As part of the proposal, Volume II (b), Joint Venture Agreements must meet the criteria set forth in 13 CFR (S) 125.8.

5.3 In addition to the line item pricing in section B, the contractor shall complete the 50 Division Construction Cost Estimate Worksheet (Attachment 6). Contractor shall fill in construction cost estimate worksheet to include the summary and specific divisions to be utilized for this project. 6.0 RELATIONSHIP BETWEEN INSTRUCTIONS AND EVALUATION.

Your attention is directed to the functional relationship between Sections L and M of this solicitation. Section L provides information for the purpose of organizing the proposal and is not intended to be all inclusive. Section M describes evaluation factors for award. Since the Government evaluation of proposals will cover areas identified in Section M, proposals should address all such areas of evaluation.

7.0 AMENDMENT OF SOLICITATION PRIOR TO CLOSING.

The Government reserves the right to revise or amend the specifications, drawings, or the solicitation prior to the proposal closing time. Such reservations or amendments will be communicated by amendments to the Request for Proposal (RFP) and posted on the Contract Opportunities website (<https://beta.sam.gov/>). If such amendments require material changes in quantities or prices, the proposal closing date may be postponed by enough days to enable offerors to revise their proposals. In such cases, the amendment will include an announcement of the new closing date and time. Offerors MUST acknowledge all amendments in their proposal, either by completing SF 1442 Block 19, providing signed copies of the amendments with their proposal (Section III), or by separate letter which includes a reference to the solicitation and amendment numbers.

8.0 QUESTIONS.

All questions regarding this solicitation must be submitted in writing. All questions and subsequent answers will be posted to the Contract Opportunities website <https://beta.sam.gov/>. It is the responsibility of the contractor to continuously monitor the site for updates. To mitigate the risks associated with the cancellation of this solicitation due to untimely submission of questions, all questions must be submitted electronically to the individual(s) listed below no later than close of business 5 business days after the site visit. Any questions submitted after this period may not be answered.

Section M - Evaluation Factors for Award

Section M - Evaluation Factors for Award

1.0 SOURCE SELECTION

1.1 Basis for Contract Award.

This is a best value source selection conducted in accordance with Federal Acquisition Regulation (FAR) 15.3, Source Selection, as supplemented by the Defense Federal Acquisition Regulation Supplement (DFARS), and the Air Force Federal Acquisition Regulation Supplement (AFFARS). These regulations are available electronically at the Air Force (AF) FAR Site, <http://farsite.hill.af.mil>. The Best Value technique chosen for this particular acquisition will be a Subjective Tradeoff. The Government will select the best overall offer, based upon an integrated assessment of Technical/Technical Risk, Past Performance, and Cost/Price. Contract(s) may be awarded to the offeror who is deemed responsible in accordance with the FAR, as supplemented, whose proposal conforms to the solicitation's requirements (to include all stated terms, conditions, representations, certifications, and all other information required by Section L of this solicitation) and is judged, based on the evaluation factors and subfactors to represent the best value to the Government. The Government seeks to award to the offeror who gives the Air Force the greatest confidence that it will best meet, or exceed, the requirements. This may result in an award to a higher rated, higher priced offeror, where the decision is consistent with the evaluation factors, and the Source Selection Authority (SSA) reasonably determines that the technical and/or past performance of the higher price offeror outweighs the cost difference. The SSA will base the source selection decision on an integrated assessment of proposals against all source selection criteria in the solicitation (described below). While the Government source selection evaluation team and the SSA will strive for maximum objectivity, the source selection process, by its nature, is subjective; and therefore, professional judgment is implicit throughout the entire process.

1.2 Discussions.

If, during the evaluation period, it is determined to be in the best interest of the Government to hold discussions, offeror responses to Evaluation Notices (ENs) and the Final Proposal Revision (FPR) will be considered in making the source selection decision. If the offeror's proposal has been evaluated at the time discussions are closed, any changes or exceptions in the Final Proposal Revision are subject to evaluation and may introduce risk to the offeror's proposal that may change the rating of the offeror's proposal.

2.0 EVALUATION FACTORS.

The following evaluation factors will be used to evaluate each proposal: Award will be made to the offeror proposing the combination most advantageous to the Government based upon an integrated assessment of the evaluation factors described below.

Factor 1: Technical

Subfactor 1: Project Schedule

Subfactor 2: Qualifications

Factor 2: Past Performance

Factor 3: Cost/Price

2.1 Relative Importance of Factors. The relative importance of each factor and subfactor is as follows: Past Performance, Technical, and Cost/Price. Order of importance: Factor 2 (Past Performance) being most

important, Factor 1 (Technical) next in importance, and Factor 3 (Cost/Price) is last in importance. Within the Technical Factor, subfactor 1 is more important than subfactor 2.

In accordance with FAR 15.304(e), all evaluation factors other than Cost/Price, when combined, are significantly more important than cost or price.

3.0 TECHNICAL EVALUATION FACTORS.

The Technical evaluation provides for two distinct but related assessments into one rating: the Technical and the Technical Risk. These two have equal impact for the rating of each Technical factor.

3.1 Technical Assessment. The technical assessment provides an assessment of the quality of the offeror's solution for meeting the Government's requirement. The assessment will focus on the strengths and deficiencies of the offeror's proposal, and how well the offeror's proposal meets the Technical factor requirements.

3.2 Technical Risk Assessment. The Assessment of Technical Risk, which is manifested by the identification of weakness(es), considers potential for disruption of schedule, degradation of performance, the need for increased Government oversight, or the likelihood of unsuccessful contract performance. The risk rating considers the risk associated with the technical approach in meeting the requirement.

3.3 Technical Subfactor Ratings. Each Technical subfactor will receive one of the color ratings described in DoD Source Selection Procedures, Table 3 - Combined Technical/Risk Ratings, excerpted below. The Technical Risk descriptions identified in the Combined Technical/Risk Rating description are further defined in DoD Source Selection Procedures, Table 2B - Technical Risk Descriptions, excerpted below. Factor ratings shall not be rolled up into an overall color rating for the Technical factor

Table 3 - COMBINED TECHNICAL/RISK RATINGS

TABLE 3 – COMBINED TECHNICAL/RISK RATINGS		
Color Rating	Adjectival Rating	Description
Blue	Outstanding	Proposal indicates an exceptional approach and understanding of the requirements and contains multiple strengths.
Purple	Good	Proposal indicates a thorough approach and understanding of the requirements and contains at least one strength.
Green	Acceptable	Proposal meets requirements and indicates an adequate approach and understanding of the requirements, and risk of unsuccessful performance is no worse than moderate.
Yellow	Marginal	Proposal has not demonstrated an adequate approach and understanding of the requirements, and/or risk of unsuccessful performance is high.
Red	Unacceptable	Proposal does not meet requirements of the solicitation, and thus, contains one or more deficiencies, and/or risk of unsuccessful performance is unacceptable. Proposal is unawardable.

Table 2B - TECHNICAL RISK DESCRIPTIONS

TABLE 2B – TECHNICAL RISK DESCRIPTIONS	
Rating	Description
Low	Proposal may contain <u>weakness(es)</u> which have little potential to cause disruption of schedule, increased cost or degradation of performance. Normal contractor effort and normal Government monitoring will likely be able to overcome any difficulties.
Moderate	Proposal contains a significant weakness or combination of weaknesses which may potentially cause disruption of schedule, increased cost or degradation of performance. Special contractor emphasis and close Government monitoring will likely be able to overcome difficulties.
High	Proposal contains a significant weakness or combination of weaknesses which is likely to cause significant disruption of schedule, increased cost or degradation of performance. Is unlikely to overcome any difficulties, even with special contractor emphasis and close Government monitoring.
Unacceptable	Proposal contains a material failure or a combination of significant weaknesses that increases the risk of unsuccessful performance to an unacceptable level.

3.4 SUBFACTOR 1: Project Schedule:

Using the provided specifications, the offeror must provide a project schedule and narrative supporting the schedule. The proposal shall describe procedures, processes and methods for tracking the progress of the project and interface with the Government and contractor team from beginning to end.

3.4.1 The progress schedule and supporting narrative will be evaluated on how well the offeror captured the separate work elements of the project, the order of work elements to include project phasing, number of days for each work element, and the identification of long lead time materials. Long lead items such as major equipment, electrical equipment, pre-engineered piping, etc., must be specifically identified in the technical proposal. If there are no Long Lead Time Materials, the proposal must state that there are no Long Lead Time Materials. The AF Form 3064, Contract Progress Schedule shall reflect a 380-day performance period. At a minimum, the project must include: mobilization, submittals, demolition, and major work elements by specification division, final inspection, demobilization, and close-out documents. The schedule must be in the form of a progress chart of suitable scale to indicate appropriately the percentage of work scheduled for completion by any given date during the performance period.

3.4.2 The project schedule itself shall be evaluated to determine if it visually depicts and addresses each of the following elements:

3.4.2.1 Identification of separate work elements

3.4.2.2 Order of work elements to include project phasing (including identification of critical period as discussed in paragraph 1.2 above)

3.4.2.3 Number of days for each work element

3.4.2.4 Identification of Long Lead Time Materials (Long lead items such as major equipment, electrical equipment, pre-engineered piping, etc., must be specifically identified in the technical proposal. If there are no Long Lead Time Materials, the proposal must state that there are no Long Lead Time Materials.)

3.5 SUBFACTOR 2: Qualifications.

3.5.1 Qualifications: The Source Selection Team will evaluate the contractor's proposed key personnel who will be involved in the day-to-day accomplishment of this contract including, as a minimum, personnel qualified in the areas identified below. The Source Selection Team will evaluate this subfactor to determine if the qualifications of proposed personnel meet the identified minimum requirements, certifications, and licenses required for personnel performing activities or acting in the specific capacity.

-Program/Project Manager (PM):

The contractor's Program/Project Manager shall have as a minimum at least five (5) years experience managing construction projects. The PM is the primary POC for the CO for all contractual issues with regards to project/program execution and is responsible for the overall management of this contract. The PM is to ensure that quality work is accomplished on schedule and assuring qualified personnel and subcontractors are assigned to complete performance. It is the PM's responsibility to ensure that contractor personnel and subcontractors possess the appropriate qualifications and experience to complete specified project tasks and that they comply with all statutes, regulations, as well as the contract requirements. The PM shall have and provide to CO, upon request, all required employee or subcontractor certifications and qualifications.

-Superintendent:

Must have a minimum of five (5) years experience in construction with at least two (2) years of those years as a superintendent on projects similar to the relevancy of the required project. Must demonstrate the familiarity with the requirements of EM 385-1-1 and have experience in the areas of hazard identification and safety compliance, to include successful completion of the OSHA 10-hour Training Course within the past three (3) years.

4.0. PAST PERFORMANCE FACTOR.

The Past Performance evaluation will result in an overall performance confidence assessment as defined below. This performance confidence assessment represents the Government evaluation team's judgment of the probability of an offeror successfully accomplishing the proposed effort based on the offeror's demonstrated past and present performance. The performance confidence assessments are defined as follows:

PERFORMANCE CONFIDENCE ASSESSMENTS

Substantial Confidence

- Based on the offeror's recent/relevant performance record, the Government has a high expectation that the offeror will successfully perform the required effort.

Satisfactory Confidence

- Based on the offeror's recent/relevant performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.

Neutral Confidence

- No recent/relevant performance record is available or the offeror's performance record is so sparse that no

meaningful confidence assessment rating can be reasonably assigned. The offerors may not be evaluated favorably or unfavorably on the factor of past performance.

Limited Confidence

- Based on the offeror's recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.

No Confidence

- Based on the offeror's recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.

4.1 Evaluation Process: The past performance evaluation considers each offeror's demonstrated recent and relevant record of performance in supplying products and services that meet the contract's requirements. Performance confidence is assessed at the overall Past Performance factor level after evaluating aspects of the offeror's recent past performance, focusing on performance that is relevant to the Technical factors and Cost /Price factor taking into consideration their relative order of importance stated in Section M, paragraph 1.1(a). In conducting the Past Performance evaluation, the Government reserves the right to use both the information provided in the offeror's Past Performance proposal volume and information obtained from other sources available to the Government, to include, but not limited to, the Contractor Performance Assessment Reporting System (CPARS), Federal Awardee Performance and Integrity Information System (FAPIS) or other databases; interviews with Program Managers and Contracting Officers; the Defense Contract Management Agency (DCMA), and commercial sources.

4.1.1 Recency Assessment: An assessment of the past performance information will be made to determine if it is recent. To be recent, the effort must be ongoing or must have been performed during the past six (6) years from the issuance month of this solicitation. Past performance information that fails this condition will not be evaluated.

4.1.2 Relevancy Assessment: The Government will conduct an in-depth evaluation of all recent performance information obtained to determine how closely the products provided/services performed under those contracts relate to the Technical factors and Cost/Price factor, including their relative order of importance (reference Section M, 1.1(a)). Consideration will be given to projects involving the type of construction and work elements described in the attached Specifications. Relevant past performance information must demonstrate construction experience involving the type of construction and work elements described in the attached Specifications, Section 01 11 00, and costs comparable to the project magnitude as specified in Block 10 for the SF 1442, Request for Proposal. A relevancy determination of the offeror's past performance will be made based upon the aforementioned considerations, including joint venture and teaming partner(s). In determining relevancy for individual contracts, consideration will be given to the effort, or portion of the effort, being proposed by the offeror or teaming partner whose contract is being reviewed and evaluated. The past performance questionnaires and information obtained from other sources will be used to establish the degree of relevancy of past performance. The Government will use the following relevancy definitions when assessing recent contracts:

RELEVANCY ASSESSMENT DEFINED

Very Relevant

- Present/Past performance effort involved essentially the same scope and magnitude of effort and complexities this solicitation requires.

Relevant

- Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.

Somewhat Relevant

- Present/past performance effort involved some of the scope and magnitude of effort and complexities this solicitation requires.

Not Relevant

- Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.

4.1.3 Quality of Performance. All recent past performance that is determined to be somewhat relevant, relevant, or very relevant will be reviewed to determine the quality of the offeror's performance, general trends, and the usefulness of the performance. This information will be used by the evaluation team in determining the overall performance confidence assessment rating.

4.1.4 Assigning Ratings: As a result of the relevancy of the recent contracts evaluated, offerors will receive an integrated performance confidence assessment rating. Although the past performance evaluation focuses on performance that is relevant to the Technical factors and cost/price factor, the resulting performance confidence assessment rating is made at the factor level and represents an overall evaluation of contractor performance. Offerors without a record of recent/relevant past performance or for whom information on past performance is so sparse that no meaningful confidence assessment rating can be reasonably assigned will not be evaluated favorably or unfavorably on past performance and, as a result, will receive an "Unknown Confidence" rating for the Past Performance factor. More recent performance will have a greater impact on the Performance Confidence Assessment than less recent or relevant effort. A strong record of relevant past performance may be considered more advantageous to the Government than an "Unknown Confidence" rating. Likewise, a more relevant past performance record may receive a higher confidence rating and be considered more favorably than a less relevant record of favorable performance.

4.1.5 If a Teaming Agreement is submitted as part of the proposal as outlined in Section L para 4.2, each teaming offeror's past performance will be evaluated separately using the same evaluation methods described above. The Prime Contractor's past performance will be weighted slightly more than equal based on their overall responsibility for contract management. The separate ratings of each party in the Teaming Agreement will be combined to determine an aggregate PERFORMANCE ASSESSMENT CONFIDENCE RATING as defined in Section M.

4.1.6 If an offer is submitted as a Joint Venture under a Mentor-Protege program as outline in Section L para 4.3, the Government will evaluate past performance for each partner to the Joint Venture individually as well as past performance accomplished by the Joint Venture itself. The separate ratings of each party in the Joint Venture will be combined to determine an aggregate PERFORMANCE ASSESSMENT CONFIDENCE RATING as defined in Section M.

5.0 COST OR PRICE FACTOR.

The offeror's Cost/Price proposal will be evaluated to ensure it is reasonable, pursuant to FAR 15.404.

5.1 Reasonable: Must represent a price to the Government that a prudent person would pay in the conduct of competitive business.

6.0 CLARIFICATIONS, DISCUSSIONS, AND NEGOTIATIONS.

The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offerors initial offer should contain the offeror's best terms from a price and technical standpoint. In accordance with FAR 15.306, Offerors may be asked to clarify certain aspects of their proposal (for example, relevance of past performance information). Communications (Clarifications) conducted to resolve minor or clerical errors will not constitute discussions and the contracting officer reserves the right to award a contract

without the opportunity for proposal revision. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. Discussions or negotiations may be conducted with all offerors in the competitive range. Offerors may be required to participate in telephone discussions or in face-to-face oral discussions at the 1st Special Operations Contracting Squadron, 350 Tully Street, Hurlburt Field, FL, 32544.

7.0 CONTRACTOR RESPONSIBILITY.

Once the apparent successful offeror is selected the Government will evaluate the offeror's financial capabilities and the specified criteria at FAR 9.104. Solicitation attachment 5, Financial Reference Worksheet will be forwarded to the financial institution and a determination will be made regarding the apparent successful offerors financial capabilities and overall contractor responsibility using the specified criteria at FAR 9.104.

8.0 SOLICITATION REQUIREMENTS, TERMS AND CONDITIONS.

Offerors are required to meet all solicitation requirements, such as terms and conditions, representations and certifications, and technical requirements, in addition to those identified as factors or sub factors. Failure to comply with the terms and conditions of the solicitation may result in the offeror being ineligible for award. Offerors must clearly identify any exception to the solicitation terms and conditions and must provide complete supporting rationale.
